

# Anti-drowning Alarm System

## 'Romantic-Louveteaux-en-Provence\*\*\*\*'

### Anti-Drowning Alarm system

The pool has an Anti-Drowning Alarm placed next to the pool. This system is meeting the French norm NF P 90-307-1:2009 and is active and armed upon your arrival. Instructions on how to handle the device is given by our staff upon check in and can be found in the welcome book. This system provides an alarm if there is movement in the water (a human or an animal falling in).

### Instructions for Anti-Drowning Alarm system when using the Swimming Pool

As per French legislation the ALARM should always be switched on when not in use. Children should always be accompanied by a responsible adult while using the pool. This is your own responsibility. We do not supervise the pool.

The manual can be found at

[https://www.gippp.nl/louveteauxguestinfoprogram/wp-content/blogs.dir/24/files/2021/07/Precisio\\_Anglais.pdf](https://www.gippp.nl/louveteauxguestinfoprogram/wp-content/blogs.dir/24/files/2021/07/Precisio_Anglais.pdf)

As per French legislation the alarm should ALWAYS be activated and armed, unless the pool is used for swimming by or under guidance of adults

If you need more information or help, please check with our local staff!
